Education

KIET Group of Institutions

Bachelor of Technology in Information Technology; CGPA: 8.1/10

Oct 2022 – Present

Delhi-NCR, India

Skills

- **Programming:** Java, C++, JavaScript, TypeScript, Python, SQL, HTML, CSS
- **Frameworks and Libraries:** React.js, Next.js, Node.js, Express.js, Nest.js, TensorFlow, PyTorch, Scikit-learn
- **Cloud and DevOps:** AWS, Docker, Kubernetes, Git, GitHub, NPM
- **Databases:** MongoDB, MySQL
- **Core Concepts:** Data Structures and Algorithms, System Design, REST APIs, Microservices, Neural Networks, Natural Language Processing (NLP), Computer Vision, Generative AI

Experience

M37 Labs

SDE

Jan 2026 – Present

Gurugram, India — OnSite

- Developed scalable full-stack applications using the **MERN stack**, **FastAPI**, and **Django**; partnered with largest Jewellery and Clothes retail store to translate requirements into high-performance, user-centric solutions.
- Designed enterprise-grade **Generative AI SaaS platforms** leveraging **LLMs**, **Prompt Engineering**, and **Computer Vision** for clients across **Malaysia and US**, ensuring cross-functional alignment and scalable architecture.
- Built production-ready **AI inference pipelines** with **model fine-tuning**, **human-in-the-loop feedback**, and optimized backend integrations to improve accuracy, latency, and deployment reliability.

M37 Labs

SDE Intern

Sept 2025 – Dec 2025

Gurugram, India — OnSite

- Architected end-to-end **LLM-powered** and **vision-based AI systems** with structured prompt pipelines and evaluation frameworks for performance optimization.
- Integrated **AI microservices** with scalable **FastAPI** services for seamless deployment across cloud-native environments.
- Collaborated on **AWS-based** deployments, CI/CD automation, and technical documentation to deliver robust, production-grade AI systems.

Synapsis Medical Technologies

SDE Intern

Feb 2025 – Apr 2025

Edmonton, Canada — Remote

- Built **5+ backend APIs** in **Nest.js** supporting authentication, appointment tracking, and core application modules.
- Developed end-to-end testing framework using **React.js**, improving bug detection speed and reducing integration defects by **65%**.
- Integrated **3D medical simulation visuals** using **Three.js**, **React Three Fiber (R3F)**, and **GSAP**, enhancing high-fidelity user interaction.

Projects

Authence Link | *React.js, Node.js, Express.js, MongoDB, JWT, OAuth, bcryptjs*

Nov 2024 – Present

- Engineered a **plug-and-play authentication module** with **10+ reusable UI components** and secure token-based flows.
- Implemented **3 authentication methods** (email-password, OAuth, API key) with **RBAC** for two distinct user roles.
- Wrote **20+ unit and integration tests** using **Jest**, improving reliability and reducing production bugs.

AI & ML Powered Chat App Link | *Next.js, Node.js, MongoDB, GSAP*

May 2023 – Jun 2023

- Redesigned the **UI/UX** with **4+ multi-page views**, improving navigation clarity and reducing task completion time.
- Integrated **secure authentication** and session policies supporting two user roles.
- Added **10+ interactive UI elements** with smooth **GSAP** animations to enhance user engagement.

Achievements

- **C++ and DSA Proficiency:** Solved **500+ problems** using C++; achieved **1500 LeetCode Rating** and **621 Codeforces Rating**.
- **Open Source:** Delivered **900+ GitHub contributions**, including **50+ merged PRs** and **20+ starred repositories**, driving collaboration across open-source communities.
- **Freelancing:** Delivered **2 client projects**, earning **\$1,750** and **\$1,000** for website development and SEO optimization; maintained **99.9% uptime** for client deployments.
